Re: USEPA § 104(E) Information Request Concerning  
Conservation Chemical Site, Gary, Indiana

Dear Ms. Beasley:

Grossman Iron & Steel Company ("Grossman Iron") hereby responds to a U.S. Environmental Protection Agency ("EPA") request for information concerning the Conservation Chemical Company of Illinois ("Conservation Chemical") site in Gary, Indiana ("the Site").

In response to EPA's information request, we disagree with EPA's overly broad assumption of authority, which it asserts is conferred by the Comprehensive Environmental Response, Compensation & Liability Act ("CERCLA"), 42 U.S.C. § 9601 et seq., and other laws. Grossman Iron also objects to the overly broad scope of the questions and definitions included within EPA's information request. However, consistent with Grossman Iron's policy of cooperation with government agencies, we are responding to EPA's request, while at the same time reserving all objections and defenses to EPA's statement of authority or the scope of information requested. (See Attachment 1: Grossman Iron's Response to EPA's Request for Information.)

Grossman Iron's responses to EPA's information requests establish that Grossman Iron is not subject to any CERCLA environmental liability at the Site. Grossman Iron's responses establish that:

- 1) Conservation Chemical purchased "# 1010"/"A.S." carbon steel punchings ("carbon steel punchings") from Grossman Iron between the dates of January 13, 1981 through November 19, 1982;

- 2) The carbon steel punchings purchased by Conservation Chemical from Grossman Iron were not painted, coated, glued or in any way contaminated;
- 3) Conservation Chemical paid a third-party trucking company for the transportation of the carbon steel punchings to Conservation Chemical;
- 4) Conservation Chemical used the carbon steel punchings as raw material or feedstock in the manufacture of a product, and did not reclaim or treat the carbon steel punchings; and
- 5) Grossman Iron has not been a party to and does not have knowledge of any other arrangements at the Site.

Documents and information relating to Conservation Chemical's purchase of carbon steel punchings from Grossman Iron are enclosed herein as Exhibits A and B, and further described in Attachment 1.

Specifically, Exhibit A, Grossman Iron's Sales Contracts, provides the requested information concerning all arrangements between Grossman Iron and Conservation Chemical at the Site. Exhibit B provides redundant sales contract information and additional back-up information, obtained from Conservation Chemical's files, regarding some of these arrangements. Grossman Iron's search of its files for any and all other back-up documentation regarding the arrangements is ongoing, and Grossman Iron will promptly provide EPA with copies of any back-up documentation that is discovered.

As the EPA is aware, Conservation Chemical's purchase of a commercial product from Grossman Iron cannot serve as a basis for any CERCLA environmental liability claim against Grossman Iron. United States v. Westinghouse Electric Corp., 22 ERC 1230 (S.D. Ind. 1983); Florida Power & Light v. Allis Chalmers Corp., 29 ERC 1486 (S.D. Fla. 1989), aff'd, 31 ERC 1134, 893 F.2d 1313 (11th Cir. 1990).

Be assured that Grossman Iron supports the prompt, efficient cleanup of sites which present a substantial danger to public health, welfare or the environment. However, at the present time the information available to Grossman Iron establishes that it is not responsible for any hazardous substances at the Site.

If you have any questions concerning Grossman Iron's position in this matter, please contact the undersigned at (314) 622-0646.

Very truly yours,

HUSCH & EPPENBERGER

**GROSSMAN IRON & STEEL COMPANY'S  
RESPONSE TO EPA'S REQUEST FOR INFORMATION**

1. Identify all persons consulted in the preparation of the answers to these Information Requests.

The party responsible for preparing this response on behalf of Grossman Iron is Husch & Eppenger, by Charles E. Merrill, Attorneys for Grossman Iron & Steel Company. The following persons were consulted in the preparation of Grossman Iron's response:

David Grossman, President, Grossman Iron & Steel Company, 5 North Market, St. Louis, MO 63102, (314) 231-9423

Sidney Grossman, Chairman of the Board, Grossman Iron & Steel Company, 5 North Market, St. Louis, MO 63102, (314) 231-9423

2. Identify all documents consulted, examined, or referred to in the preparation of the answers to these Requests and provide copies of all such documents.

Grossman Iron objects to Request # 2 as overbroad and unduly burdensome in that it requests the identity and copies of "all documents consulted, examined, or referred to" in the preparation of Grossman Iron's response to EPA's request for information. Notwithstanding, Grossman Iron has identified and provided copies of all documents, as Exhibits, which are responsive to or which Grossman Iron reasonably relied upon in responding to EPA's request for information:

Exhibit A, Grossman Iron's Sales Contracts  
Exhibit B, Affidavit of Sidney Grossman with Exhibits  
Exhibit C, Grossman Iron's 1120 U.S. Corporation Income Tax Returns (1990, 1991, 1992)  
Exhibit D, Grossman Iron's Articles of Incorporation and Bylaws

**Exhibit E, Grossman Iron's Consolidated Statements of Income and Balance Sheets (1990, 1991, 1992)**

3. If you have reason to believe that there may be persons able to provide a more detailed or complete response to any Information Request or who may be able to provide additional responsive documents, identify such persons.

Grossman Iron does not know of any persons who would be able to provide a more detailed or complete response or who would be able to provide additional responsive documents.

4. List the EPA Identification Numbers of the Respondent.

EPA Identification Number # MOD98579743.

5. Identify the acts or omissions of any persons, other than your employees, contractors, or agents, that may have caused the release or threat of release of hazardous substances, pollutants, contaminants, or materials at the Site.

Grossman Iron does not have knowledge (other than from public documents concerning the Site) of any acts or omissions of any persons, contractors, or agents, that may have caused the release or threat of release of hazardous substances, pollutants, contaminants, or materials at the Site.

6. Describe all arrangements that you may have had with Conservation Chemical Company of Illinois and/or Norman Hjersted in relation to the Site, with respect to purchasing, receiving, supplying, processing, storing, treating, disposing, or otherwise handling hazardous substances, pollutants, contaminants, or materials at the Site. Provide all documents which identify the responsible person(s) for each activity.

Grossman Iron did not purchase, receive, supply, process, store, treat, dispose or otherwise handle hazardous substances, pollutants, contaminants, or materials at the Site. Grossman Iron's only arrangements with Conservation Chemical Company of Illinois ("Conservation Chemical") and/or Norman Hjersted in relation to the Site consisted of Conservation Chemical's

purchase of "# 1010"/"A.S." carbon steel punchings ("carbon steel punchings") from Grossman Iron between the dates of January 13, 1981 through November 19, 1982. Exhibit A. The carbon steel punchings purchased by Conservation Chemical from Grossman Iron were not painted, coated, glued or in any way contaminated. Exhibit B. Grossman believes that Conservation Chemical used the carbon steel punchings as raw material or feedstock in the manufacture of a product, and did not reclaim or treat the carbon steel punchings.

7. Did you ever use, purchase, supply, store, treat, dispose, transport, or otherwise handle any hazardous substances, pollutants, contaminants, or materials at or to the Site? If the answer to the preceding question is anything but an unqualified "no," identify:

- a) the chemical name, composition, characteristics, physical state (e.g., solid, liquid) of each hazardous substance, pollutant, contaminant, or material;
- b) how such hazardous substance, pollutant, contaminant, or material was used, purchased, supplied, stored, treated, disposed, transported or otherwise handled by you;
- c) when such hazardous substance, pollutant, contaminant, or material was used, purchased, supplied, stored, treated, disposed, transported or otherwise handled by you;
- d) where such hazardous substance, pollutant, contaminant, or material was used, purchased, supplied, stored, treated, disposed, transported or otherwise handled by you; and
- e) the quantity of such hazardous substance, pollutant, contaminant, or material used, purchased, supplied, stored, treated, disposed, transported or otherwise handled by you.

Grossman Iron did not use, purchase, supply, store, treat, dispose, transport, or otherwise handle any hazardous substances, pollutants, contaminants, or materials at or to the Site. As

stated, Grossman Iron's only arrangements in relation to the Site consisted of Conservation Chemical's purchase of uncontaminated carbon steel punchings from Grossman Iron between the dates of January 13, 1981 through November 19, 1982. Notwithstanding the foregoing, Grossman Iron responds as follows:

a) solid carbon steel;

b) carbon steel punchings were purchased by Conservation Chemical from Grossman Iron between the dates of January 13, 1981 through November 19, 1982; Conservation Chemical paid Jack Gray Transport, Inc., 4600 East 15th Avenue, Gary, Indiana 46403 ("Jack Gray Transport") for the transportation of the carbon steel punchings to Conservation Chemical. Exhibits A and B;

c) carbon steel punchings were purchased by Conservation Chemical between the dates of January 13, 1981 through November 19, 1982. Exhibit A;

d) Conservation Chemical purchased the carbon steel punchings from Grossman Iron and paid Jack Gray Transport for their transport to Conservation Chemical's Gary, Indiana site. Exhibits A and B;

e) Conservation Chemical purchased a total of approximately 1,857,220 lbs. of carbon steel punchings from Grossman Iron between the dates of January 13, 1981 through November 19, 1982. Exhibit A.

8. Identify all persons, including Respondent's employees, who have knowledge or information about the use, purchase, supply, store, treatment, disposal, transport, or other handling of any hazardous materials at or to the Site.

Grossman Iron objects to Request # 8 as overbroad and unduly burdensome in that it requests the identity of "all persons" who "have knowledge or information about the use, purchase, supply, store, treatment, disposal, transport, or other handling of any hazardous materials at or to the Site." Further, Grossman Iron did not use, purchase, supply, store, treat, dispose, transport, or handle any hazardous materials at or to the Site. As stated, Grossman Iron's only arrangements in relation to the Site

consisted of Conservation Chemical's purchase of uncontaminated carbon steel punchings from Grossman Iron between the dates of January 13, 1981 through November 19, 1982.

Notwithstanding the foregoing, Grossman Iron identifies the following as persons who have knowledge or information about Conservation Chemical's purchase of carbon steel punchings from Grossman Iron:

1) David Grossman, President, Grossman Iron & Steel Company, 5 North Market, St. Louis, MO 63102, (314) 231-9423

2) Sidney Grossman, Chairman of the Board, Grossman Iron & Steel Company, 5 North Market, St. Louis, MO 63102, (314) 231-9423

3) V. H. Collignon, retired account executive, Grossman Iron & Steel Company, 5 North Market, St. Louis, MO 63102, (314) 231-9423

4) Meyer Golder, retired account executive, Grossman Iron & Steel Company, 5 North Market, St. Louis, MO 63102, (314) 231-9423

Grossman Iron does not have knowledge (other than from public documents concerning the Site) of any other persons who have knowledge or information about the use, purchase, supply, store, treatment, disposal, transport, or other handling of any hazardous materials at or to the Site.

9. Identify all persons, including, but not limited to the Respondent, who may have arranged for disposal or treatment or arranged for transportation for disposal or treatment of hazardous substances, pollutants, contaminants, or materials at or to the Site. In addition, identify the following:

- a) the hazardous substance, pollutant, contaminant, or material;
- b) the chemical composition, characteristics, physical state (e.g., solid, liquid) of each hazardous substance, pollutant, contaminant, or material;

- c) the process for which each hazardous substance, pollutant, contaminant, or material was used or the process which generated the hazardous substance or material or solid waste;
- d) the person(s) with whom Respondent or such other persons made arrangements for disposal or treatment or transportation for disposal or treatment of hazardous substances, pollutants, contaminants, or materials.
- e) the time period during which each arrangement existed between Respondent and each such person;
- f) where such hazardous substance, pollutant, contaminant, or material was used, purchased, generated, stored, treated, transported, disposed or otherwise handled by you;
- g) the quantity (weight or volume) of such hazardous substance, pollutant, contaminant, or material involved in each transaction and the total quantity for all transactions;
- h) the amount paid in connection with each transaction, the method of payment, and the identity of the person making the payment;
- i) the person(s) who selected the Site as the place where the hazardous substances, pollutants, contaminants, or materials would be disposed;
- j) the type and number of containers in which the hazardous substances, pollutants, contaminants, or materials were contained when they were accepted for transport, and subsequently until they were deposited at the Site, and all markings on such containers;

Grossman Iron did not arrange for disposal or treatment or arrange for transportation for disposal or treatment of hazardous substances, pollutants, contaminants, or materials at or to the Site. As stated, Grossman Iron's only arrangements in relation to the Site consisted of Conservation Chemical's purchase of

uncontaminated carbon steel punchings from Grossman Iron between the dates of January 13, 1981 through November 19, 1982.

Grossman Iron does not have knowledge (other than from public documents concerning the Site) of any other persons who may have arranged for disposal or treatment or arranged for transportation for disposal or treatment of hazardous substances, pollutants, contaminants, or materials at or to the Site.

Notwithstanding the foregoing, with respect to Conservation Chemical's purchase of carbon steel punchings from Grossman Iron, Grossman Iron responds as follows:

a) carbon steel;

b) solid;

c) Grossman Iron believes that the carbon steel punchings purchased by Conservation Chemical from Grossman Iron were used as raw material or feedstock in the manufacture of a product, and were not reclaimed or treated by Conservation Chemical;

d) Conservation Chemical paid Jack Gray Transport for the transportation of the carbon steel punchings from Grossman Iron to Conservation Chemical. Exhibits A and B;

e) For all arrangements between Conservation Chemical and Grossman Iron with regard to the Site, Jack Gray Transport transported the carbon steel punchings from Grossman Iron to Conservation Chemical. Exhibits A and B;

f) Grossman Iron purchased the carbon steel punchings purchased by Conservation Chemical from Marathon Electric Manufacturing Co. ("Marathon") of Lebanon, Missouri. Exhibit B. Grossman Iron considers the identity of this source to be highly confidential;

In all instances, Conservation Chemical paid Grossman Iron for the purchases by check;

i) Conservation Chemical paid Jack Gray Transport for the transportation of the carbon steel punchings from Grossman Iron to Conservation Chemical. Exhibits A and B;

j) Jack Gray Transport transported the carbon steel punchings to Conservation Chemical in bulk (i.e., containers not used). Exhibits A and B.

10. Identify all liability insurance policies held by Respondent from 1967 to the present. In identifying such policies, state the name and address of each insurer and of the insured, the amount of coverage under each policy, the commencement and expiration dates for each policy, whether or not the policy contains a "pollution exclusion" clause, and whether the policy covers or excludes sudden, non-sudden or both types of accidents. In lieu of providing this information, you may submit complete copies of all relevant insurance policies.

Grossman Iron has no information regarding Grossman Iron's general liability insurance coverage prior to October 1, 1979. Grossman Iron's general liability insurance carriers subsequent to October 1, 1979 are listed below:

October 1, 1979 - October 1, 1990 - CNA  
October 1, 1990 - October 1, 1991 - Valley Forge Insurance Co.  
October 1, 1991 - October 1, 1992 - CNA  
October 1, 1992 - October 1, 1993 - CNA

11. Provide copies of all income tax returns sent to the Federal Internal Revenue Service in the last three years.

**See Exhibit C.**

12. If Respondent is a corporation, respond to the following requests:

- a) Provide a copy of the Articles of Incorporation and By-Laws of the Respondent.
- b) Provide Respondent's financial statements for the past three fiscal years, including, but not limited to those filed with the Internal Revenue Service.

**See Exhibits D and E.**

13. If Respondent is a Partnership, provide copies of the Partnership Agreement.

**N/A**

14. If Respondent is a Trust, provide all relevant agreements and documents to support this claim.

**Exhibit B**  
**Affidavit of Sidney Grossman with Exhibits**

IN THE MATTER OF:

CONSERVATION CHEMICAL COMPANY OF ILLINOIS, et al.  
ENVIRONMENTAL PROTECTION AGENCY  
REGION V ADMINISTRATIVE ORDER UNDER §106 OF CERCLA

SUPPLEMENTAL AFFIDAVIT OF SIDNEY GROSSMAN

I, Sidney Grossman, of legal age, being first duly sworn upon my oath, depose and state:

1. I have personal knowledge of the matters stated herein. I am currently Chairman of the Board of Grossman Iron & Steel Co. ("Grossman Iron"), and I have been either Chairman of the Board or President of Grossman Iron for approximately 35 years.

2. This Supplemental Affidavit is submitted in response to the letter of April 7, 1989 from Paula E. Neff and Joseph E. Costanza on behalf of the 6500 Industrial Highway Group (the "Group"), requesting additional information substantiating Grossman Iron's nonliability in this matter.

3. Attached hereto as Exhibit 1 are true copies of Grossman Iron sales contracts documenting Grossman Iron's sales of 1010 carbon steel punchings to Conservation Chemical at its Gary, Indiana site between the dates of 3-10-81 through 11-17-81.

4. Attached hereto as Exhibit 2 are copies of the Conservation Chemical files relating to these sales which were provided to attorneys for Grossman Iron by attorneys for the Group. These documents establish beyond any doubt that Grossman Iron sold the 1010 carbon steel punchings in question as a useful product to Conservation Chemical at its Gary, Indiana site. As reflected by the documents in Exhibit 2, Conservation Chemical

paid Grossman Iron for the 1010 steel punchings, not vice versa. In addition, as demonstrated by the attached documents, Conservation Chemical, not Grossman Iron, paid the freight charges for the shipment of these 1010 steel punchings.

5. As further demonstrated by the documents in Exhibit 2, Grossman Iron did not pay Conservation Chemical to dispose of or treat these 1010 carbon steel punchings. Nor, based on my review of Grossman Iron's business records and my personal knowledge of Grossman Iron's business operations, did Grossman Iron arrange for the disposal or treatment of any substance--hazardous or nonhazardous--at Conservation Chemical's Gary, Indiana site.

6. Grossman Iron's source of the 1010 carbon steel punchings sold to Conservation Chemical at its Gary, Indiana site between the above referenced dates was Marathon Electric Manufacturing Co. ("Marathon") of Lebanon, Missouri. Grossman Iron continues to purchase 1010 carbon steel punchings from this source today and we consider the identity of our source to be highly confidential.

7. Grossman Iron paid Marathon for the 1010 carbon steel punchings in question and then, in turn, resold those punchings to Conservation Chemical Company at Gary, Indiana.

8. Marathon is a manufacturer of small motors. I am generally familiar with Marathon's manufacturing process. Marathon receives the 1010 carbon steel from which the punchings sold to Grossman Iron are derived in sheets from steel mills such as LTV and United States Steel.

9. As part of its manufacturing process, Marathon stamps

various shapes through the 1010 steel sheets and the resultant metal pieces i.e., "punchings" are purchased by Grossman Iron from Marathon.

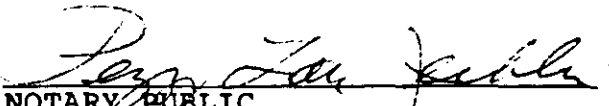

10. Marathon does not paint, coat, or in any way contaminate the sheets of 1010 carbon steel from which the punchings purchased by Grossman Iron are derived. Nor does Marathon paint, coat, glue, or in any way contaminate the punchings from the 1010 carbon steel sheets before selling the punchings to Grossman Iron.

11. After purchasing these uncontaminated 1010 carbon steel punchings from Marathon in 1981, Grossman Iron sold these punchings to Conservation Chemical at its Gary, Indiana site without adding paint, coatings, glue, or any other substance to contaminate the 1010 carbon steel.

12. Grossman Iron continues to purchase these 1010 carbon steel punchings from Marathon today. Attached hereto as Exhibit 3 is a recent "typical" example of the punchings in question which have not changed in composition between 1981 and present date.

  
SIDNEY GROSSMAN  
Chairman of the Board  
Grossman Iron & Steel Co.

Subscribed and sworn to before me this 24<sup>th</sup> day of April, 1989.
